Attendages Bents Last Year's Records-New Pentures in Hunting Equipments and Devices. Blue Books from England. A splash in the waters of the boat tank, followed by an ear-splitting yell, caused a momentary excitement at the Sportsmen's Show last night. The small boys among the visitors have been allowed to thump the punching bags and sall in the pneumatic "eneak" duck skiff to their heart's content, and there is always a throng of urchins struggling for the chance to board the boat. One was too eager last night, and his jump for the boat landed him in the

water, which caused the sensation. The boy was drouched from head to foot, and, as he was dressed in his best suit of clothes." like the of the sea, the show thereafter had no joys for the reckiess youth. After being dried out in the botler room, the boy started nomeward in a dismal plight. A repeating double-barrel shotgun is one of the hunting novelties. Two extra shells are

placed in the reserve mayarine and when the regular shells have been discharged the barrels are unlocked by a third trigger, and then thrown forward by the left hand, which cocks the piece, ejects the empty shells, and brings

thrown forward by the left hand, which cooks the piece, ejects the empty shells, and brings the new shells into position. It is claimed that four shots can be lired in five seconds with this gun. In a near-by booth Miss Anna Oakley, the trap shot, shows how quickly the hammerless ejecting shotguns may be handled. When at work the caps snap as fast as the explosions of a pack of firecrackers, and the shower of discharged paper shells fills the air.

A spring trap for throwing blue rocks in inanimate bird contests is a constant attraction to the wing shots. In a cage on this booth some blue rock pigeons, just received from England, are on view. They are long and well feathered in the wings, and look fast enough to bear out all the tales told of the birds used at the Hurlingham and London Gun Club matches.

Hear Chief, the Blackfeet Indian chief, now displays a pictorial story of his life, and explains the meanings of the green and yellow ochre marks on the tanned skin with many guttural "oghs!" The rude sketches depict hear Chief killing bears, lassoing horses, and thumping other Indians, so that his words are hardly needed to explain the signs.

Souvenirs are blossoming out on the booths, the exhibitors having kept them under cover at first. At one booth the souvenirs are tobacco pouches for use in the woods. Riffe cartridge paper weights are given jat another stand, and there is no limit to the handsomely illustrated booklets. The boy who sits on the stuffed elephant only moves to distribute circulars. He is clad in the gorgeous robes of an Arab shelk and is a model of patience, for he sits for hours on the hard back of the pachyderm.

Up to the closing of the doors last night it was estimated that over 15,000 persons had seen the show. The official figures for Monday and Tuesday were 9,281 visitors. This beats last year's attendance. Among the afternoon visitors were 0, E. Hodgman, J. E. Goodrich, F. H. Hodgman, C. C. Call, Charles Clark, Z. C. Talbot, and A. L. Smith, all members of the Smith and Wesson Hille

Mill Clark Seat Home-A Sample of Now the Tonn Is to Se Managed. JACKSONVILLE, March 18.—Bill Clark, one of the New Yorks' new first basemen, has received notice that his presence is no longer wanted here. He received a ticket to New York this afternoon, with an order to be on board the steamer which sails to-morrow morning.

At first Manager Irwin refused to give any reason for the club's action, but it leaked out that on Saturday night the big first baseman had been caught in a saloon drinking beer with some friends. This undoubtedly was the final nail in Clark's coffin. His work has not been

some friends. This undoubtedly was the final nail in Clark's coffin. His work has not been any too good while here, and several days ago Manager Irwin decided to place Harry Davis on first for the regular team.

Clark does not deny having taken a drink, but rays he was not intoxicated. He says he has been unjustly treated in the matter, and is simply being made an example of. Before the season started threats were made that the first man caught taking a drink would be suspended, and it looks as though Manager Irwin intended to keep his word.

To-day's game was by far the worst exhibition that either team has given. Errors were piled up so thick and fast that Manager Irwin grew weary. It evidently was an off day for both teams. The weather was by far the hottest that has been experienced during the past ten days.

All the pitchers took advantage of the hot spell and let out a little. Kagey and Seymour both loosened up, and at the end the former, although on the losing side, had all the best of it. Had he received better support his showing would have been much better. He used a high fast ball that kept the regulars on the jump all the time. In the five innings he pitched eleven hits were made off him. Seven of these were made in the third inning, but some of them were suspicious, being the result of stupid work of the men nehind him.

Seymour did not do so well. He was as wild as a March hare, and after hitting two men he stopped using speed and was hit safely ten times.

"Dad" Clarke pitched the first part of the game for the regular team, and only four hits were made off his delivery. Manager Irwin tried Mulligan at short to-day, and the little fellow showed up very well. He accepted seven of his eight chances, two of his stope being of the sensational order. He also hit well, making three singles. He was hit by pitched belief in his other two times up. The score:

Minor Leagues Organize.

minor baseball leagues concluded their meeting yesterday with the formation of a permanent or-ganization. B. B. Johnson of the Western League was made President and Jake Morse of the New Eng League Secretary. The organization was formed for the purpose of protecting the interests

After the organization was perfected the national agreement was taken up and discussed in detail. The sections of this document considered unjust and detrimental to the interests of the minor league were noted. It was then decided to draft a letter to the major league representatives requesting them to meet the representatives of the minor league at some future time. If the magnates of the major league agree to this the objectionable sections of the national agreement will be presented to them. Exactly what these objections are it was decided not to make public until the major league people have been heard from.

A member stated, however, that the concessions asked would be reasonable and in no way an attempt to destroy the national agreement. We will appeal to them as men as well as baseball magnates, 'he said. 'It is not our purpose,' he continued, 'to form a monopoly. 'What we want is protection for the good of the national game.' While it cannot be officially stated, it is well understood that the minor league objects principally to the classification system imposed and to taxation without representation. The major league rules the minor organization without the latter having any voice.

CEARLOSTE, N. C., March 18.—The Brooklyns got two more good practices to-day, the weather being all that they could wish. Batting was made the special work of the morning game and fielding of the afternoon. Of the seven pitchers, Daub, Abbey, and Harper are in the best shape. Arms and legs are pretty stiff from the hard practice after so long a rest, but Manager Foutz says his men will be well trained down before they leave here. The fielders handled themselves well to-day. Some clever work was done. Four of the regular teams are still non est, so Man ager Foutz has not yet attempted any signal practice. The men, he says, will have the signals down fine before they leave. Crowds witness the practices everyafternoon. The team will play its first exhibition
game Friday. The inness will be arranged thus:

TRAP SHOOTING. First Day of the Big Cobweb Gun Club

The first day's shoot of a four-day tournament of the Cobweb Gun Club took place at the club's grounds at Baychester yesterday. This tournament is the first that the club has ever attempted, and the members deserve credit for he smoothness with which the events in the programme were run off. A number of shooters from a distance were present, attracted to the city by the Sportamen's Exposition, and varying their visit by a little shooting. Among these were O. R. Dickey and B. W. Leroy of Boston, F. D. Fulford, B. A. Bartiett, and Sim Glover from up the State, a fair delegation from New Jersey, C. A. Young of Ohio and Rolla O. Heikes from the same State, the latter of whom broke seventy-nine empires without a miss, and landed the principal event with twenty-five straight. The events, of which there were twelve, were all at artificial targets. The club, in addition to the sweepstake prizes, puts up \$50 in gold, cut up into four purses, for

New York German Gua Club Shoot.

The New York German Gun Club held its regular ive-bird shoot at Dexter Park yesterday afternoon straight score was made, that being by John Wellbrock. P. Garms and J. P. Dannefelser were tied for second. A club shoot and three sweepstakes con-stituted the day's sport, with John Weilbrock taking all the honors, winning the club medal and scoring ten straight birds in both the sweepstakes he was in. His shooting was phenomenal, as he killed fifteen out of eighteen with the first barrel. In the first sweepstakes A. Busch had it all his own way with five stakes A. Busch had it all his own way with five straight, Aug. Schmitt and Dr. G. V. Hudson dividing second money. In the second P. Garms, John Weit' brock, and J. P. Dannefelser divided first, Jul. Johns setting second money, while A. Busch, Dr. Hud-son, and Freet Sauter were third. To conclude the day's fin another sweep was shot. It resulted in a four-banded tie for first money be-tween J. Schlicht, P. Garms, F. Sauter, and J. Weil-brock, with Dr. Hudson alone for second money. The secores:

Joseph P. Knapp, who usually shoots under the nom de plume of J. K. Paimer in America, and who won the amateur pigeon-shooting championship at Larchmont in 1895, made his début at the Monte Carlo traps on Feb. 27, and since then his name has frequently figured among the prize winners. He and Charles Macaiester have long been regarded as being the most consistent shots among our ama-teurs here, and Knapp rather astonished the for-

being the most consistent shots among our amateurs here, and Knapp rather astonished the foreigners when, on his first attempt at Monte Carlo, he won third prize of £15 in the Prix des Resedus Hamilten, killing eleven out of a possible twelve birds from the £04-metre mark. M. Descharmays and M. Demonts, both 26 metres, divided first and second money between them with scores of nine straight. Mr. Knapp, 23 metres; M. Verdavaine, 28 metres, and M. Thorne, £34 metres, with accres of eight, shot off for third money. Chrence bolan, the Philadelphia expert, also shot in this event, but missed his first bird.

On the following day, Feb. 28, in the Prix Supplementaire, Knapp divided first money, something like £61, with Baron de Pallandt, each killing like £61, with Baron de Pallandt, each killing nine before he missed a fast riser from the No. 1 trap. On Feb. 26, in the Prix des Azalees Handicap, Knapp, at the £79, metres mark, was unplaced, missing his third bird. Dolan, £79 metres, also missed in the third round. The event was divided between Signor Federaoil and Mr. Otho, each killing eight. Knapp make up for this, however, on March 2, when he took third prize from the £64-metre mark in the Prix des Belles de Jour Handleap, killing ten birds. Count L. Gajoli and Kennedy divided first and second money with a score of eleven birds straight. On March 4, in an extra handleap event, neither Mr. Dolan, £74 metres, nor Mr. Knapp, £7 metres, were placed, Count L. Gajoli and M. Lo dividing the honors with twelve each.

Shooting Notes. Al Heratage and Rolla Q. Heikes have been matched Al Heratage and Rolla Q. Helkes have been matched to shoot at fifty birds each for \$100 a side, to take place at Elizabeth during the week following the Inter-State tourney. Heratage will shoot at 28 yards and Heikes at 30 yards.

COLUMBIA CREW ON THE MIVER.

The Oarsmen Take Their First Practice Pull of the Season on the Harlem. The Columbia 'Varsity crew took their first

row on the water yesterday afternoon. Not-withstanding the great amount of snow that lined the shores of the Harlem, the river itself was clear of ice, and the weather was fully warm enough to allow a good afternoon's work, which was brought down from Poughkeepsie last Monday, and spent altogether a little over an hour in practice.

During the last few days in the gymnasium the crew was worked pretty hard. After exercising for an hour and a half steadily on the chest weights, the men were accustomed to tak-ing a forty-five-minute row on the machines,

chest weights, the men were accustomed to taking a forty-five-minute row on the machines, and then finished up with a long run. That amount of work was unusual for so early in the training, but it was only done in consequence of the easy work they will have for the first two weeks on the river.

The positions of the men as the crew rowed yesterday in the shell were as follows: Stroke, H. E. Pierrepont, Jr.; 7. O. Longacre; 6. G. H. Carter; 5. S. Hall; 4. J. H. Prentice (captain): 3. M. McDonaid; 2, H. McLeed; bow, R. W. Press. prich. Of these men Pierrepont, Longacre, Carter, Prentice, and Pressprich rowed in last year's winning 'varsity eight. The other men are new men who bave never rowed before in a shell, and, considering that fast, they did very well yesterday for the first time. Coach Futnam had the crew row yesterday with practically no slide for the first time. He coached the men by twos and fours, mainly for the back and arm work. Livingston, last year's freshman corswain, held the tiller ropes. Different men will be tried during the next few days for that position, and probably one will not be finally selected for several weeks.

The management has not yet decided upon a coaching launch, as there seems to be difficulty in finding one that will be fast enough to keep up with the crew. The launch that was used last year could not or otherwise it would have been chartered again this year. At present, however, until one is procured, the coaching will be done from a barree pulsed by the substitutes. The freshmen will not be able to go on the water for some time yet, as they have no shell in which to row. The shell used by last year's freshman crew was sent to Waters at Troy to be repaired, and has not yet been brought down.

The Ice Palace Skaling Elink was crowded last night, the attraction being a polo match between the teams representing the Ice Palace Pulo Club and the Mount Clare. Polo Club of New Jersoy. The score was one

Showniter and Kemeny Adjourn the Ninth Came Yesterday. PHILADELPHIA, March 18, -Play in the chees match between Showalter and Kemeny was resumed at the Franklin Chess Club this afternoon, it being the ninth meeting between the players. Showalter tried another Ruy Lopes, which Kemeny defended up to his tenth turn in a similar manner as he did in the seventh game of the match. To-day he played 10 ... P-K B ? instead of 10 ... Kt-QB4, a move which cer-

tainly gave white an advantage. Subsequent play demonstrated the supe riority of Kemeny's tactice as compared with those in previous Ruy Lopez contests. He was enabled to develop his pieces to greater advan tage and got a better position in consequence His move 15... Q-Q 4, leaving his bishop on king's second to be taken, was much admired by king's second to be taken, was much admired by the spectators. Showalter, as will be seen, could not afford to take the piece, as he would have lost his queen through 16. It R Is R. After this some fine play was shown on both sides, each trying his best to gain in position. This led to an exchange of queens after twenty-two moves. After twenty-six moves the rooks had also disappeared from the board, and when the game was adjourned for dinner, after thirty-one moves, at 0 o clock, the position was slightly in favor of white, owing to the fact that white had three connected pawns on the queen's ada, while black's nawns were disjointed on the side of the board, but it was generally though among the experts present that the advantage would scarcely suffice to win.

At 8 o'clock play was continued. White adopted rushing pawn tactics, which completely blocked the position on the king's side, while it promised a chance of a break into his opponent's queen's side. After forty-five moves the game was again adjourned, to be renewed to-morrow. Here follows the score up to date:

NINTH GAME-RUY LOPEZ. SHOWALTER. SEMENT, BUDWALTER. White, Block, 1 P.-K 4 P.-K 4 P.-K 4 P.-K 4 P.-K 4 P.-K 4 P.-K 5 P.-C 4 P.-C

Schoolboys (Play Chess, two postponed games in the Interscholasti

chess tournament between De La Salle Institute former institute yesterday. St. Clair and Lebaire faced each other in the first game. By a clever trick Lebaire succeeded in capturing St. Clair's pawn and was on the point of queening when the latter restance.

Lebaire tried conclusions with Dadem in the next game. The former again played a French Defence. In the course of the game Dudem lost three pawns and finally some valuable pieces. On his forty-first move Lebaire won.

By these two victories De La Salle Institute wins the championship by 54 games to 24 for Columbia.

WHEELING.

Amateurs Warned Against Violating Rules Semi-professionals Will Not Be Tolerated. Chairman Gideon of the Racing Board of the League of American Wheelmen, realizing that the amateur riders are constantly violating the rules in their class, has issued a warning this week, advising what steps the Racing Board propose to adopt this year to keep the amateur ranks clear from semi-professional interlopers. Chairman Gideon says:
"Southern and northern California are re-

garded as two distinct States by the L. A. W. and the Racing Board, and an amateur resident of either division cannot compete outside of the boundaries of his division at a distance of over 100 miles from his place of residence.

"The greatest abuses of the league's rules and the Racing Board's confidence are committed by these men, who obtain their expenses and other concessions, and yet seek to remain other concessions, and yet seek to remain amateurs. When men travel far from their homes to race, under the care and direction of representatives of the trade, there can be but one inference. Men in the employ of the trade who are allowed time for training, and travel from mest to meet, enjoy advantages which it was never contemplated the amateur would have. Such men do a creat injustice to those who are yet amateurs perforce, and who are struggling to develop themselves with their own resources. Amateurism is the nursery of racing, and when one so develops as to command the assistance of the trade he belongs in professionalism, and there he will be transferred by the Board under the general provisions which authorize it to act.

by the Board under the general provisions which authorize it to act.

"This warning is issued now, that racing men may at once select their proper class. The Board will not be satisfied to simply transfer to the professional class riders found guilty of violating the amateur rules, but will also suspend from all track racing riders who enter races under such false pretences and are detected. "Applicants for sanctions on national holidays should bear in mind the fact that the rules re-garding confliction of interests are waived on such days."

The official bulletin is as follows:

Owing to the expected forfeiture by the Austin, Nichols & Co. team, the chief interest in the Carruthers national tournament games in Brooklyn last night centred in the performance of Moht of the Fearless team, who had a chance to overtake the average leader. Meht played below his average, however, so that Martin, the clever South Paw twirler, lands the coveted trophy with a record of 181 for 20 games. The scores:
